

GR Series - GR

4 Foot LED Grow Light

40 UMOL Per Second

Project:

Location:

Cat.No:

Notes:

Product Description

The GR Series grow light is engineered to optimize the growth of green plants and flowers. Easy to install under shelves or in growing areas, it includes mounting clips for secure attachment with screws. Its plug-and-play design makes it user-friendly for gardeners of all experience levels. For optimal results, position the light 1 to 3 feet above your plants. Ideal for vegetative growth before flowering, it promotes robust plant development with excellent yields.

Application

These versatile fixtures excel in diverse growing environments including under-shelf installations, greenhouses, above flowering pots, on grow light stands, and in dedicated growing rooms. Whether you're cultivating herbs, vegetables, or ornamental plants, the GR Series provides reliable supplemental lighting wherever your plants need it most.

Features

- Easy plug-and-play setup for instant installation.
- 40 PPFD ($\mu\text{mol}/\text{m}^2/\text{s}$) output for optimal plant growth.
- Watertight design ensures reliable performance.

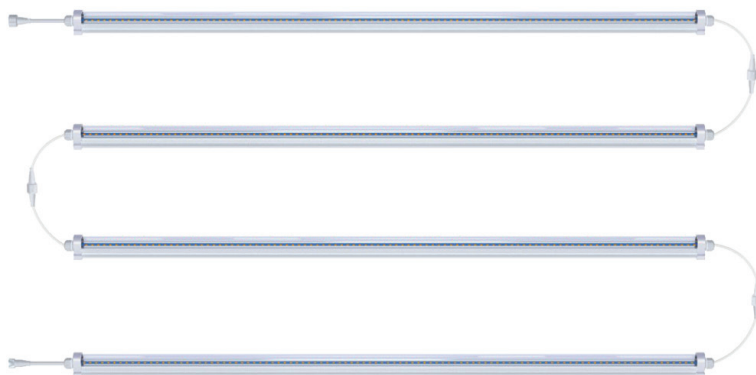

Options

- 5-foot power cable included.
- 2-foot extension/jumper cord available.
- Retail package kits for convenient purchasing.

Mounting

- Surface - mounts directly to any ceiling or wall.
- Simple installation - mounting clips included.

Approved for use in Canada and USA, IP65 rated. Includes standard 3-year warranty—view our warranty policy for complete details.

Daisy chain up to 25 bars on a single power cord.
