Product Description

The RL Series lamps deliver energy-efficient, cost-effective upgrades from traditional fluorescent lighting. Installation is straightforward—simply bypass the ballast and wire directly to the tombstones. With extensive color options, lens styles, and lumen outputs available, these versatile lamps seamlessly replace existing fluorescent or LED bulbs in virtually any fixture. Engineered to enhance both performance and aesthetics, the RL Series combines effortless installation with flexible customization options to meet your specific lighting requirements.

Application

This unit excels in retrofit applications where existing lamps require replacement or upgrading. Commonly installed in retail stores, offices, hallways, garages, workshops, basements, and numerous other commercial, industrial, and agricultural environments requiring efficient, reliable lighting solutions.

Features

- Very high efficacy of 160 lm/W for maximum energy efficiency.
- Ballast bypass with direct line voltage connection.

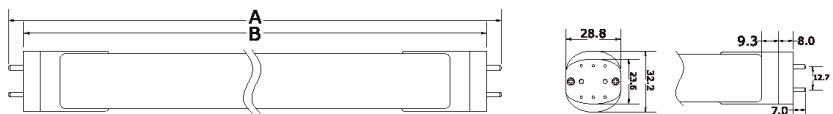

Options

- Various lens styles and color options available.
- Single-end powered configuration.
- Double-end powered configuration.

Mounting

- Lamp replacements for use with T8 tombstones.
- For single-end power, non-shunted tombstones are required.
- For double-end power, shunted tombstones are recommended.

Approved for use in Canada and USA. Includes standard 5-year warranty—view our warranty policy for complete details.
